

# Monthly Indicators

## October 2020

October continued to be busier than the calendar normally suggests. Buyer activity remains higher than normal for this time of year, while in many segments of the market housing supply remains much lower than one year ago. Multiple offers remain a common occurrence in many areas, keeping housing hot while the temperatures continue to fall.

New Listings increased 6.8 percent to 996. Pending Sales were up 36.4 percent to 955. Inventory levels shrank 51.9 percent to 901 units.

Prices continued to gain traction. The Median Sales Price increased 13.7 percent to \$240,000. Days on Market was down 41.2 percent to 20 days. Sellers were encouraged as Months Supply of Inventory was down 50.0 percent to 1.3 months.

Mortgage rates dropped to new record lows again in October, helping to offset the monthly mortgage payment increases caused by the rise in home prices seen in many segments of the market across the country. While prices often dip a bit in the winter months, continued buyer demand may temper any price retreats this year.
