

Monthly Indicators

September 2020

Strong buyer activity has continued into the fall, which is normally the start of the seasonal slowing of the housing market. With stronger buyer activity in the market this year and the continued constrained supply of homes for sale, speedy sales and multiple offers are likely to remain a common occurrence and will keep the housing market hot even when the weather is cooling.

New Listings increased 12.8 percent to 1,049. Pending Sales were up 28.7 percent to 915. Inventory levels shrank 51.1 percent to 917 units.

Prices continued to gain traction. The Median Sales Price increased 14.8 percent to \$236,000. Days on Market was down 36.4 percent to 21 days. Sellers were encouraged as Months Supply of Inventory was down 46.2 percent to 1.4 months.

While mortgage rates remain near record lows, The Mortgage Bankers Association reports that lending standards are tightening, which makes it a bit more difficult for some buyers to qualify. At the same time, unemployment remains substantially higher than a year ago due to COVID-19. Despite all this, buyers are out in full force this fall, showing amazing resilience in the middle of a pandemic.
